

# THE NORDIC OFFICE PRODUCTS MARKET 2004-9

*Third Edition: Published April 2005*

Since 1986, MPA International has been widely recognised as the leading research agency serving the office products (OP) market. In recent years there have been ongoing and dynamic challenges to Nordic distribution channels and product markets. MPA's new survey - *The Nordic Office Products Market 2004-9* – offers an insight into the OP market in the Nordic region, comparing the market in 2004 with 2003, and looking ahead to 2009.

MPA's unique research methodology collects and cross-verifies data from *all* major manufacturing and distribution channels. The finished survey contains:

- A wealth of detail on market sizes, segment trends, key players, channel shares and market forecasts in nine broad product sectors (see over).
- Details of user trends and market drivers (eg economic, demographic & IT trends).
- A focus on distribution channels, detailing key players, trends and channel shares.
- An informed view of how the market will develop to 2009, in terms of product markets and channel shares.

The 15 sections of the report are as follows:

- Market data can be easily exported to PC clipboards, while the charting feature quickly produces charts and tables for use in other programmes.
- Manufacturers and parent companies can be selected, and their sales and involvement in each sector of the Nordic OP market shown instantly.
- Product flows and distributor margins are detailed throughout the *whole* distribution chain for each product.
- Full company profiles are provided, including full contact details.
